

Disciplinary Knowledge – Religious Education & Worldviews

Religion & Worldviews is a multidisciplinary subject touching on many academic disciplines. In the United Learning curriculum, we focus on developing our disciplinary skills through the types of conversation and methods and processes required to be scholarly in the studies of Theology, Philosophy and Social Sciences. The statements below, exemplified on the following pages, are developed at progressive depth throughout the year groups. The curriculum has been sequenced so that the disciplinary content is also reviewed in subsequent units and developed as scholarly tools to access a wide range of substantive content.

Theology (Beliefs) Theologians...	Philosophy (Thinking) Philosophers...	Social Sciences (Living) Social Scientists...

The tables below outline where disciplinary knowledge is deliberately practiced in KS1 or KS2. The curriculum has been sequenced so that the content is also reviewed in subsequent units (and may also be reviewed in other subject areas like science and history). The types of conversation and methods and processes required to be scholarly within the disciplines, are universal across year groups. The tables below indicate how these disciplinary skills are applied at an age-appropriate level to the specific substantive content of the United Learning curriculum
